## **Bio-Microbics MicroFAST Tank Sizes and Manufacturers**

Date: March 3, 2014

Below is a list of manufacturers that make one or more tank(s) that meet or exceed the minimum requirements to house a Bio-Microbics MicroFAST 0.5, 0.625, 0.75, 0.9, and/or 1.5 treatment unit(s). This is a dynamic list, meaning other manufactures and/or other tank sizes can and will be added over time as requests are made to use their tank(s) on particular projects so long as they meet or exceed the minimum requirements. Each time the list is updated the date at the top of the page will be updated. The updated list will be sent to ISDH or the agency overseeing the MicroFAST approval.

### **MicroFAST 0.5, 0.625, 0.75, 0.9**

#### Cash Concrete Products

Single compartment – 1100, 1250, 1500, 1875

#### Farmer Tank

Single compartment – 1000, 1250, 1500, 2000

Dual compartment – 1500-2, 2000-2

#### Infiltrator Systems

Single compartment – IM-1060

#### McCreary Concrete Products

Single compartment – 1000, 1250, 1500, 2000

Dual compartment – 1500-2, 2000-2

#### Midwest Tile and Concrete

Single compartment – 1000, 1250, 1500, 2000

Dual compartment – 1500-2, 2000-2

#### Rochester Cement Products

Single compartment – 1000, 1250, 1500, 1750, 2000

Dual compartment – 1500-2, 1750-2, 2000-2

#### S&M Precast

Single compartment – 1000, 1250, 1500, 2000, 2500, 3000

Dual compartment – 1500-2, 2000-2, 2500-2, 3000-2

### **MicroFAST 1.5**

#### Cash Concrete Products

Single compartment – 1500, 1875

#### Farmer Tank

Single compartment – 1500, 2000

Dual compartment – 2000-2

#### McCreary Concrete Products

Single compartment – 1500, 2000

Dual compartment – 2000-2

#### Midwest Tile and Concrete

Single compartment – 1500, 2000

Dual compartment – 2000-2

#### Rochester Cement Products

Single compartment – 1500, 1750, 2000

Dual compartment – 2000-2

#### S&M Precast

Single compartment – 1500, 2000, 2500, 3000

Dual compartment – 2000-2, 2500-2, 3000-2
