

May 23, 2013

Mr. Neal Zook  
SeptiSurge LLC  
6328 East Collins Lane  
Bloomington, IN 47408

Dear Mr. Zook:

Re: Approval of SeptiSurge Models 3A and 3B  
For use in residential and commercial gravity onsite sewage systems

The SeptiSurge is a system component designed to be used in lieu of a standard distribution box in gravity flow onsite sewage systems. Under the provisions of *410 IAC 6-8.3-50(g)*, *410 IAC 6-10.1-49(h)*, the SeptiSurge model 3A and 3B are hereby approved for use in Indiana as an additional system component in an onsite sewage system by the Indiana State Department of Health (department). This approval is for the use in individual commercial and residential onsite sewage systems. Approval is effective this 23<sup>rd</sup> day of May, 2013 and subject to renewal by the department no later than the 23<sup>rd</sup> of May, 2014.

- I. The SeptiSurge is subject to:
  - a) Use in place of a standard distribution box only in gravity onsite sewage systems.
  - b) The applicable provisions of ISDH Rule 410 IAC 6-8.3 for residential gravity systems, ISDH Rule 410 IAC 6-10.1 for commercial gravity systems, and local ordinances for gravity onsite sewage systems.
  - c) The SeptiSurge Indiana Installation Instructions submitted to the department on April 16<sup>th</sup>, 2013.
- II. SeptiSurge LLC is required to:
  - a) Submit for review and approval of the department any proposed changes to any system component or the Indiana Installation Instructions prior to implementation of the changes;
  - b) Notify the department of any scheduled training event at least 10 working days prior to the event;
  - c) Provide the department, local health departments and installers with written installation, operation, and maintenance requirements for the SeptiSurge.
  - d) Provide on-going consultation to health department staffs, designers, installers, and service providers.
- III. Other requirements:
  - a) The proposed use of SeptiSurge in an onsite sewage system must be included with the plan submittal.
  - b) A permit must be obtained from the department, or the local health department, whichever has jurisdiction, before the installation of the SeptiSurge in any onsite sewage system.

This approval may be revoked or modified by the department for non-compliance, or if it is documented that it would not be in the best interests of public health for approvals to continue.

If you wish to request administrative review of this *Approval* pursuant to Indiana Code 4-21.5-3-5, you must file a petition for review within fifteen (15) days after this *Approval* is received. The petition for review and petition for stay of effectiveness must be postmarked no later than June 7, 2013.

The petition for review must be in writing and must include facts demonstrating that:

- The petitioner is a person to whom the *Approval* is specifically directed;
- The petitioner is aggrieved or adversely affected by the *Approval*; or
- The petitioner is entitled to review under any law.

If the petition for review is not filed timely, this *Approval* becomes FINAL. Any petition for review and petition for stay of effectiveness must be submitted in writing to:

Court Administrator  
Office of Legal Affairs, #3H  
Indiana State Department of Health  
2 North Meridian Street  
Indianapolis, IN 46204

If you do not object to this product submittal approval, you do not need to take any further action.

Sincerely,

Michael Mettler, REHS, Director  
Environmental Public Health Division
