LTC Update:

QuickVue Rapid COVID-19 Test

IDOH has purchased QuickVue Rapid COVID-19 tests to supplement the state's supply of rapid antigen tests. Long-term care facilities must now begin ordering QuickVue tests on the Langham Portal rather than BinaxNOW to receive rapid test materials. These items will be available for ordering on the [Langham IDOH Inventory Portal](#) starting December 15. Facilities that have orders placed in HOLD status for BinaxNOW will be provided QuickVue next week based upon approved allocations.
