**INJURY PREVENTION
ADVISORY COUNCIL (IPAC)
& INDIANA VIOLENT
DEATH REPORTING
SYSTEM (INVDRS)
MEETING**

02/04/2022

OUR MISSION:

To develop, implement and provide oversight of a statewide comprehensive trauma care system that:

- Prevents injuries.
- Saves lives.
- Improves the care and outcomes of trauma patients

OUR VISION:

Prevent injuries in Indiana.

Round Robin and Introductions (in chat)

1. Name
2. Position
3. Organization/ Association
4. Updates
5. Current Projects and Programs
6. Upcoming events

Division Vacancies

- Drug Overdose Prevention Epidemiologist
- INVDRS Records Consultant (Abstractor) – 2
- Naloxone Program Manager

Division Staff Updates

Full-Time Staff

Injury Prevention Epidemiologist

- Emma Heltzel

Records Coordinator

- Kristin Combs

Interns

Trauma

- Heidi Bultema
- Nicolette Schlup

Drug Overdose Prevention

- Savannah Stark

INVDRS

- Navtej Bal

Resource Guide App

Regularly Updated

- Free download for iOS & Android Phone & tablet capabilities
- Available in Apple & Google Play stores

Upcoming Events

February

- African American History Month
- Low Vision Awareness Month
- Teen Dating Violence Awareness Month
- **Feb 6-12:** Burn Awareness Week

March

- Women's History Month
- National Cheerleader Safety Month
- National Traumatic Brain Injury Awareness Month
- Self Harm Awareness Month
- National Ladder Safety Month
- **Mar 20-26:** National Poison Prevention Week

Upcoming Events

April

- Child Abuse Prevention Month
- Sexual Assault Awareness Month
- Distracted Driving Awareness Month
- National Youth Sports Safety Month
- **Apr 4-10:** National Window Safety Week
- **Apr 25-29:** National Playground Safety Week
- **Apr 25-29:** National Youth Violence Prevention Week
- **Apr 30:** National Drug Take Back Day

UNINTENTIONAL INJURY DATA PRESENTATION:

LOOKING AT THE NEEDS OF INDIANA FROM DATA

Emma Heltzel

Injury Prevention Epidemiologist

Injury Data in Indiana

- Use of a variety of data sets
 - Hospital Discharge
 - Mortality
- Work in collaboration with other data sets
 - NVDRS (Morgan Sprecher, INVDRS Epidemiologist)
 - Trauma Registry (Trinh Dinh, Trauma System Epidemiologist)
- Focus on specific injuries
 - Motor Vehicle Accidents – Child Injuries
 - Older Adult Falls
 - Traumatic Brain Injury

Motor Vehicle Accident (MVA) - Overview

- Most deaths of children ages 5-19 years are due to traffic injuries as occupants, pedestrians, bicyclists, and motorcyclists
 - Children become more vulnerable to motor vehicle collision injuries as they age
- The American Academy of Pediatrics recommends using a booster seat from age 5 up to the time when the seat belt fits properly, which is when the child is at least 57 inches tall
 - Kids 12 years and younger should ride in the back seat using a seat belt, no matter how short the drive.

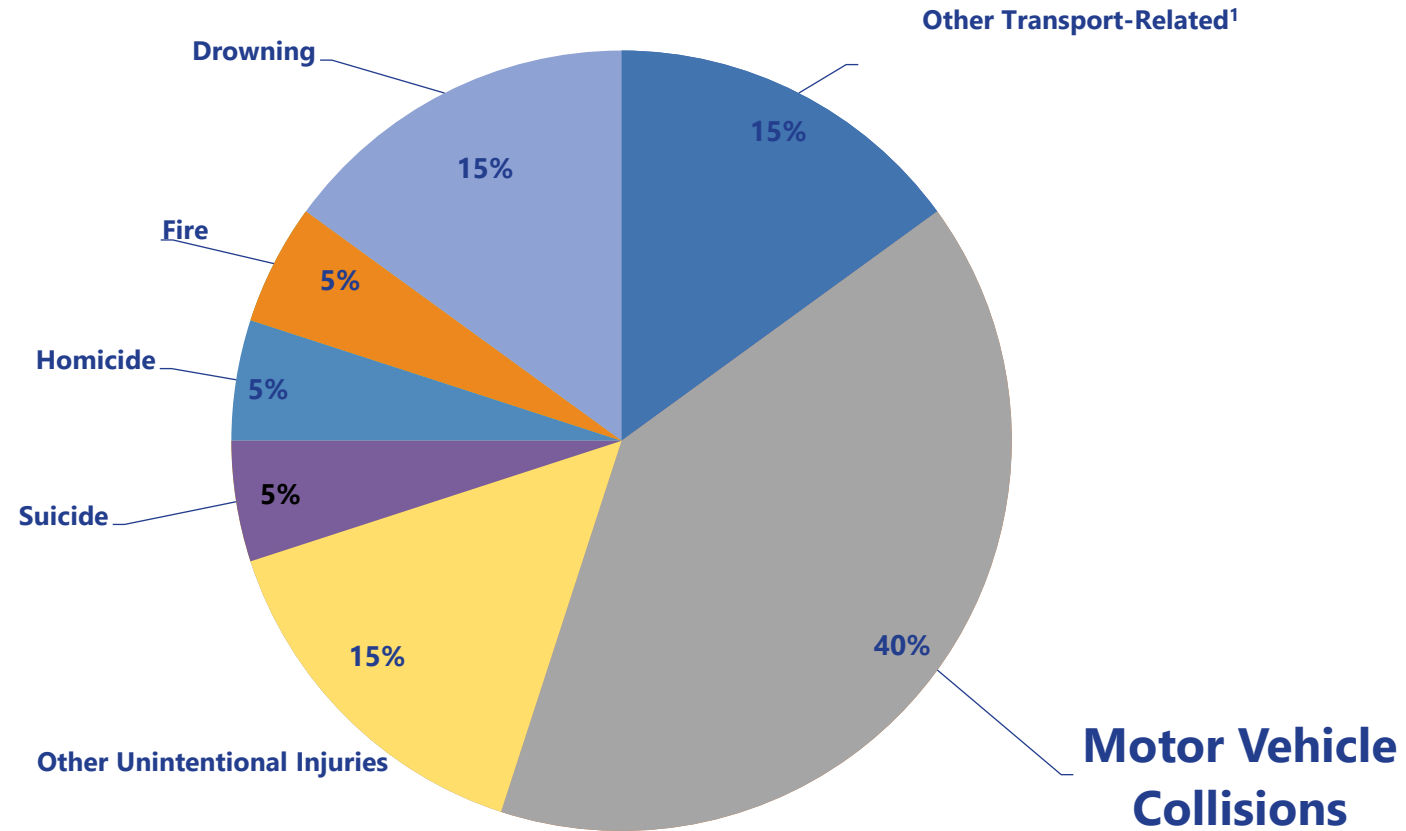

MVA – Demographics (Age)

Emergency Department Visits from Nonfatal Unintentional Motor Vehicle Accidents by Age Group

Child Injury Deaths

Percent of Injury Deaths among Children
Ages 6-11 Years, Indiana, 2019

Older Adult Falls - Overview

- Unintentional falls are the leading cause of death for older adults in Indiana (2019)
- Falls are the leading cause of traumatic brain injury (TBI) in Indiana residents (2019)
- 32.5% of fall deaths among older adults occurred due to slipping, tripping, or stumbling (2019)
 - 9.1% occurred due to falling off stairs or steps

Falls – Demographics (Age)

Age-specific Rate of Fall Deaths by Age Group, Ages 65 and Older—Indiana, 2009-2019

Falls – Demographics (Gender)

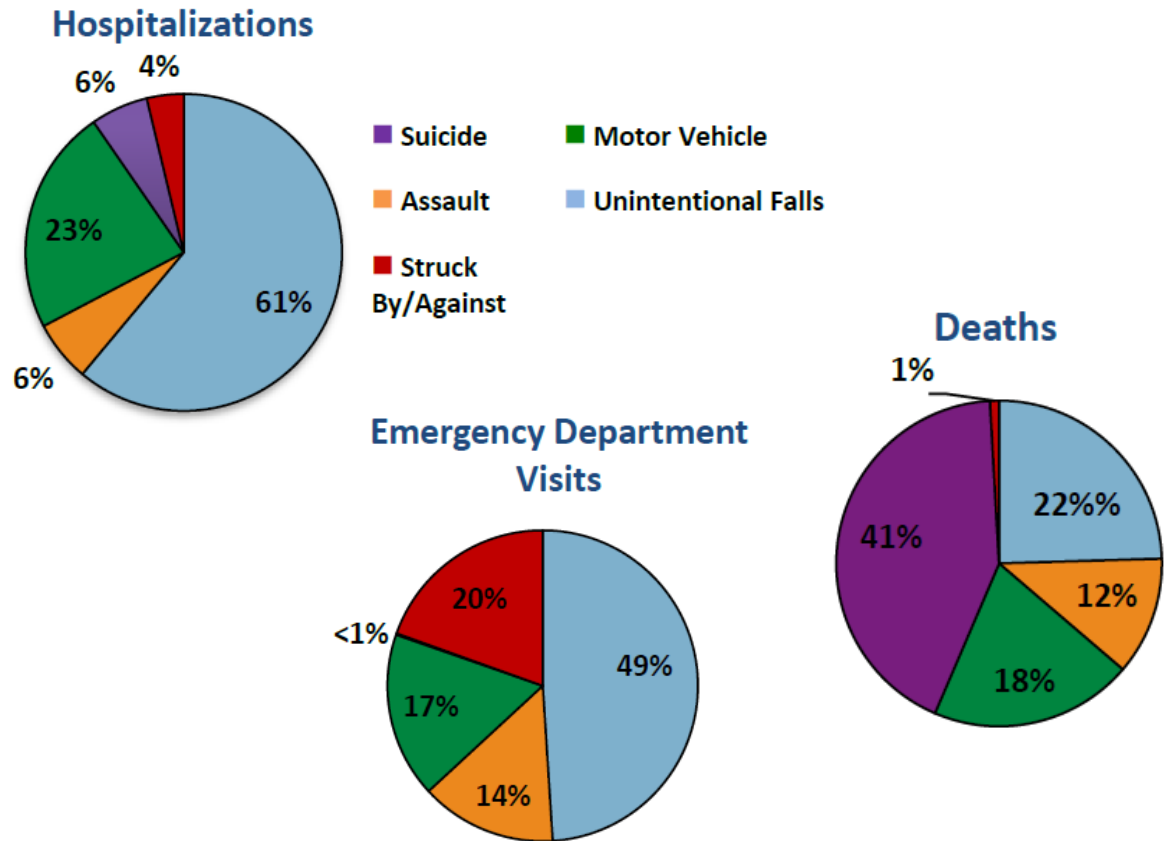

Age-adjusted Rate of Fall Deaths by Sex, Ages 65 and Older—Indiana, 2009-2019

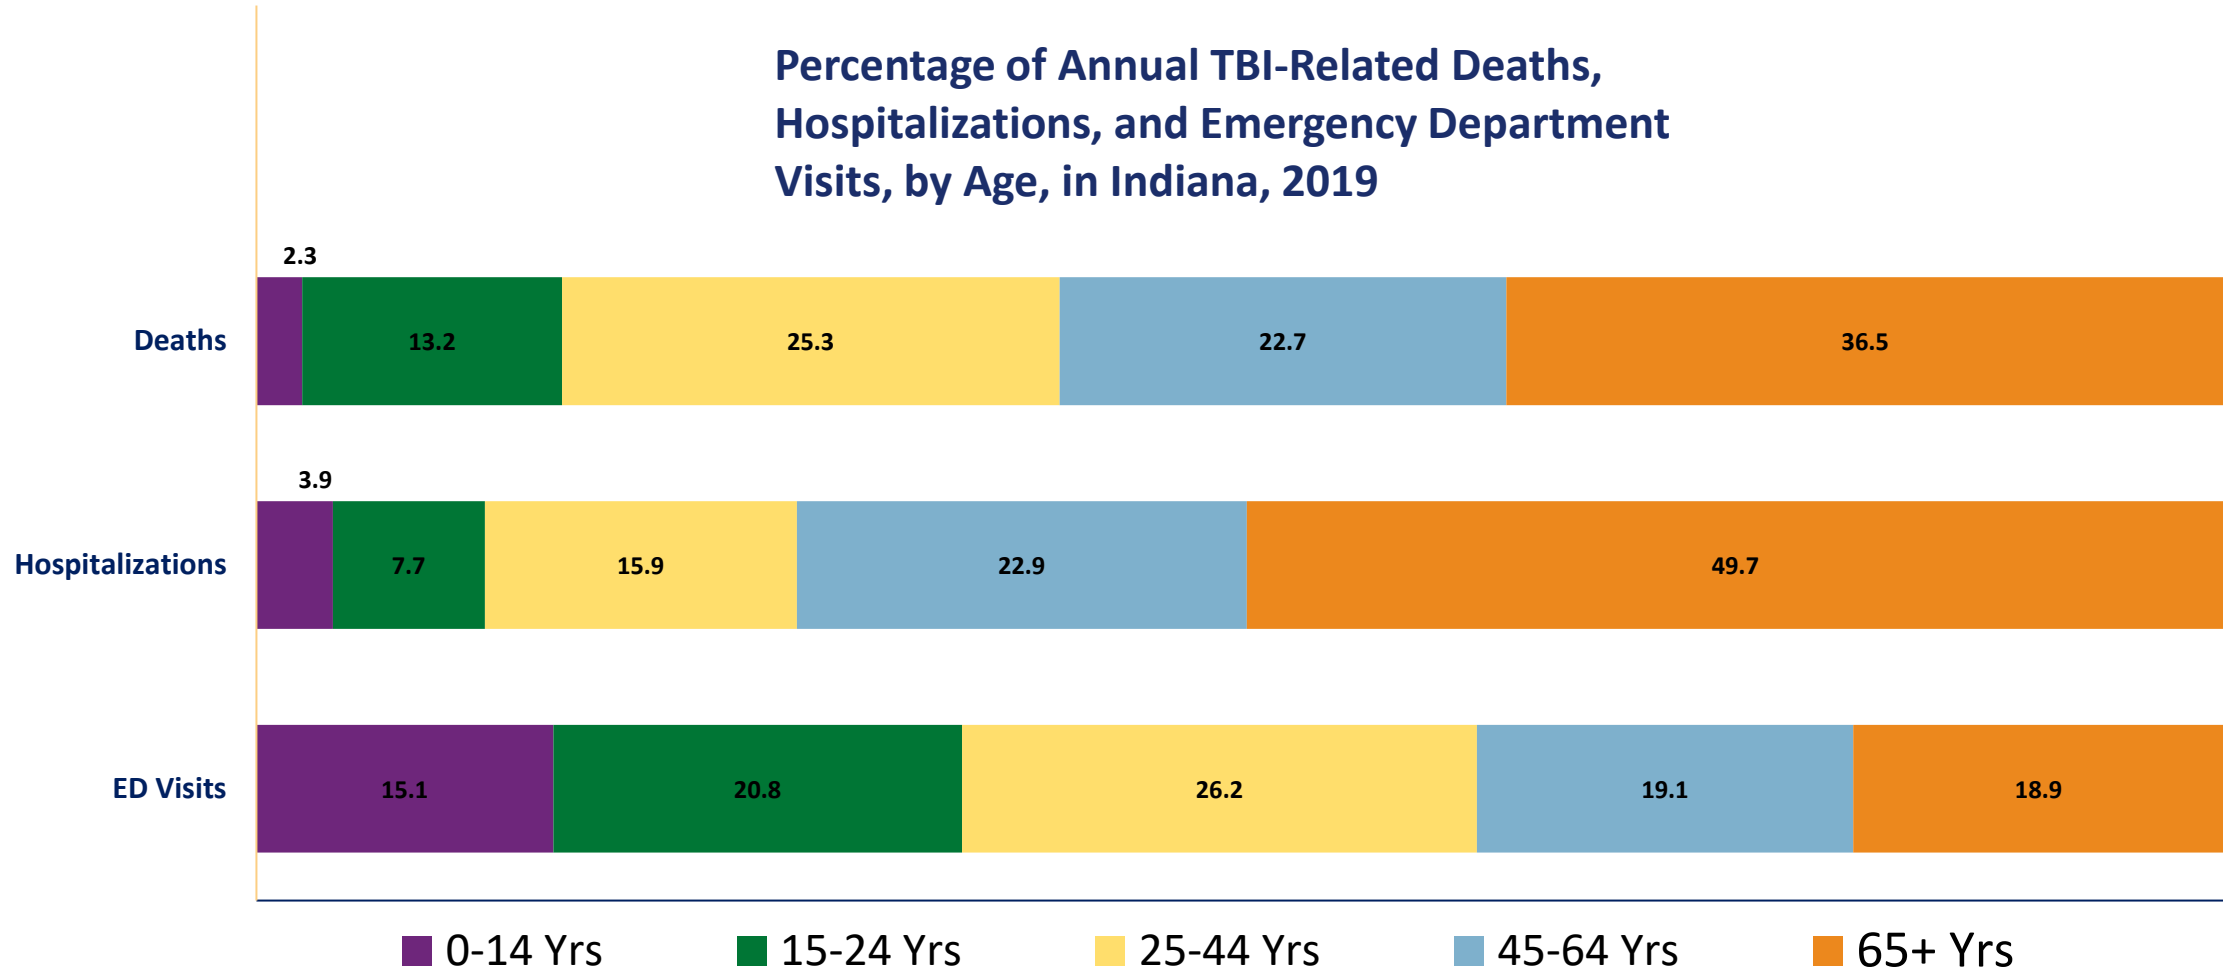

Traumatic Brain Injury (TBI) - Overview

- TBI is caused by a bump, blow, jolt, or penetration to the head that disrupts the normal function of the brain.
- 43,000 people in Indiana had a TBI in 2019

Percentage of TBI-Related Deaths, Hospitalizations and ED Visits in Indiana, 2019

TBI – Demographics (Age)

TBI – Demographics (Gender)

- Men were more likely to sustain a traumatic brain injury than women
 - 76.8% (13.5 per 100,000) of deaths where TBI was reported as a cause of death on the death certificate alone or in combination with other injuries or conditions
 - 60.4% (57.3 per 100,000) of hospitalizations for TBI alone or in combination with other injuries or conditions
 - 52.6% (259.3 per 100,000) of emergency department visits for TBI alone or in combination with other injuries or conditions

Data Drives Intervention

- Older adult falls ➡ Stepping On and STEADI Training
- Motor vehicle accidents ➡ Child passenger safety clinics and booster bashes
- Traumatic brain injury ➡ Partnership with the Rehab Hospital of Indiana and other injury and violence prevention (Heads Up)

Media Trainings

Media 101: Beginner's Guide to Working with Media

New to working with the media? Let the experts show you how to use media to share your research, grow your program, and create safer, healthier communities

- Find a newsworthy message
- Make your message attractive to media outlets
- Connect with your audience
- Create and evaluate an outreach plan

Four-hour online workshop

Dates offered: March 9,
March 25, July 13

Details & registration:
www.NationwideChildrens.org/CIRP-Media-Workshop

CENTER for INJURY
RESEARCH & POLICY

Social Media: Public Health in the Digital Age

This workshop will help you understand how social media can be used for public health, where to find your audience, and how to set up your channels for success.

- Choose channels based on goals and audience
- Identify and create content
- Set goals and track engagement
- Plan for staffing, costs, and other resources

Four-hour online workshop

Dates offered: May 11, May 21, July 15

Details & registration:
www.NationwideChildrens.org/CIRP-Media-Workshop

CENTER for INJURY
RESEARCH & POLICY

Media 201: Master Your Message and Own Your Interview

This interactive workshop builds on basic skills for public health professionals who have some experience developing media outreach plans, giving interviews, or training others.

- Prepare for media interviews
- Master your message
- Pitch your story
- Write and review press releases
- Conduct mock interviews and provide feedback

Four-hour online workshop

Dates offered: April 13,
April 29, July 14

Details & registration:

Fireworks Safety News Conference

July 2, 2021 | 10-11 a.m. ET

Watch on Facebook Live: <https://www.facebook.com/pbohio>

Hear about the impact of backyard fireworks on our community from:

- CIRP faculty and pediatric emergency medicine physician Dr. Leah Middelberg
- Prevent Blindness, Ohio Affiliate
- Franklin County Dog Shelter & Adoption Center
- Grandview Heights Division of Fire
- Grandview City Council

Spike in Firework Injuries & Deaths from 2019 to 2020

50%
Increase in
deaths & injuries
compared to 2019

15,600
people were
treated in ERs for
fireworks injuries

Deaths from Fireworks

Fireworks Safety News Conference
July 2, 2021 | 10-11 a.m. ET

<https://www.facebook.com/pbohio>

In 2020, fireworks were involved in an estimated
15,600 injuries
treated in United States emergency departments.

- October 26, 2022: TBD

In 2021, T4CIP's 2 days of action led to:

The health of the public depends on our ability to **share what we know.**

CIRTC.org will be a one-stop-shop for tools, resources, trainings, and more, all relating to health and science communication. With years of experience translating data into messages for the public and others, we want to teach you our tips and best practices to get the most of your work. We're rooted in health communication, but we also look outside our backyard at fields like behavior change and social marketing to find the best ways to reach our goals. Let CIRTC be your starting spot anytime you need to communicate.

What can you expect? We're busy building along three tracks:

1. Cataloging existing health comm trainings, tools, and resources
2. Developing our own trainings and resources that put concepts into practice
3. Collecting links to conferences, organizations, people, and more you should attend/follow/like/work with

MIDWEST INJURY PREVENTION ALLIANCE

Congratulations to Our New MIPA Leadership!

Morgan Sprecher, MPH, was elected to a two-year term (2021-2022) as MIPA President. She is the Epidemiologist for the Indiana Violent Death Reporting System (INVDRS). She holds a BS degree in Biology from Purdue University and a MPH from the Fairbanks School of Public Health at Indiana University with an emphasis in Epidemiology. Morgan serves as the violence and injury prevention specialist at the Indiana Department of Health. Her interests focus on suicide prevention and awareness, and unintentional death or injury. Morgan has served multiple years on the Out of the Darkness Campus Walks Committee of the Foundation for Suicide Prevention. She is a member of Safe States Alliance and is Chair of the MIPA NVDRS Committee. Recently, she has served as a site coordinator for COVID-19 drive-thru testing sites throughout Indiana.

Sara Kohlbeck, MPH, was elected to a two-year term (2021-2022) as MIPA Vice President. She is Assistant Director of the Comprehensive Injury Center at the Medical College of Wisconsin. In her role, Sara conducts research related to injury and violence across Wisconsin. Specifically, Sara's work focuses on understanding suicide in Wisconsin, particularly among veterans and other disproportionately affected groups. Sara is also a PhD student in Public and Community Health at the Medical College of Wisconsin. Her doctoral research is on suicide among farmers in Wisconsin. Sara received her MPH from the Zilber School of Public Health at the University of Wisconsin-Milwaukee.
