About the Division

The Indiana Department of Administration (IDOA), Division of Supplier of Diversity (DSD) is the only State's certifying agency for Minority Owned Businesses (MBE), Women Owned Businesses (WBE) and Indiana Veteran Owned Small Businesses (IVOSB). Through certification, the Division works to increase the pool of eligible diverse suppliers for government contract utilization. The Division also helps with contract compliance to ensure that diverse subcontractors are receiving fair and equal treatment on state-funded contracts. In addition, DSD focuses on outreach and business development strategies as we continue to provide existing and potential vendors with unique opportunities to network and build relationships with various stakeholders: government entities, private sector organizations, prime contractors, and other vendors.

Seeing the Big Picture

The Indiana Department of Administration (IDOA), Division of Supplier of Diversity (DSD) adjusted to our “new normal” due to COVID-19 and transitioned our outreach efforts to a digital platform. “Seeing the Big Picture” the theme of 2020 business Conference season, was our new weekly/bi-weekly web series that featured information from our partners to provide diverse suppliers with access to resources on a digital platform. The Division featured a new organization, Progression Partners, that highlighted the best practices for businesses to consider as they developed their contingency plans during the COVID-19 pandemic. DSD began the webinar series at the beginning of May and concluded with our final session on August 27, 2020. During the twelve (12) weeks, DSD hosted twenty-seven (27) panelists, with four-hundred and twenty-three (423) participants.

12th Annual DSD Business Conference

The Indiana Department of Administration 12th Annual Division of Supplier Diversity Business Conference in partnership with Progression Partners was held on October 5th-9th, 2020. We had a full week that was packed with resources that helped businesses see the big picture. The DSD Business conference was a huge SUCCESS! Over 675 participants attended our virtual workshops that focused on Certification, Access to Capital, Leadership, State Educational Institutions (SEI's), Contracts of Tomorrow, and Bonding.

Progression Partners

In seeing the big picture requires a strategy mindset and strong leadership. Progression Partners helps companies nationwide develop leaders for now and in times of change. In our efforts to bring you the richest information and best dialogue, we asked Progression Partners to join us in partnering in the creation, format and delivery of this conference. They are the founders of the "Women of Distinction" conferences. They bring data, interactivity and a richness in dialogue to set us apart in conference delivery - now and in the future.

The graphic features a vertical column of puzzle pieces on the left side, with some pieces being dark blue and others light blue. The background is a mix of blue and green geometric shapes.

Business leader, you are not the only one who finds leading a business challenging, so why go it alone? Facilitated by a Progression Partners coach, this interactive session will unlock the power of a group focused on finding solutions. Participants will tackle some challenges that conference participants have shared during the week. The group will explore actions that can be taken to address these challenges, and each participant will identify individual actions to move toward solutions to the most troubling leader challenges. After this session, leaders feel refreshed and revitalized with new approaches and recommendations.

1st Annual Cassondra Wilson Ignite Award

A successful businesswoman herself, Commissioner Cassondra Wilson was a tireless supporter and a loud voice for minority, women and veteran-owned businesses. We can proudly and without a shadow of a doubt say that Cassondra Wilson left a legacy for diverse businesses in the State of Indiana! She will not be forgotten, and her name will live on! The Governor's Commission on Supplier Diversity asked the Indiana Department of Administration Division of Supplier Diversity to have an award named after Cassondra Wilson that will go to a business, a person or an organization annually that will advocate for the minority, women and veteran owned businesses in the State of Indiana. This is the Commission's pledge to Cassondra and her children that her tireless efforts will have no end and her passion will continue to impact on future business generations!

The award was presented to Deborah Carroll, Owner of Clean Source, Inc. MBE/WBE

Being gifted with an eye for detail, Deborah Carroll is a CEO who is committed to providing exemplary customer service. A philanthropist at heart, Deborah has spent several years providing re-entry employment opportunities and giving people second chances at life. In November 2000 Deborah established Clean Source Inc., which currently employs over 100+ people. Clean Source is a commercial cleaning company that is located in Indianapolis Indiana and services areas all throughout the city. Her leadership and direction has catapulted Clean Source into a top competitor in the commercial cleaning industry.

Governor's Award for Achievement in Community Diversity and Inclusiveness

On Wednesday, August 26, 2020, Gregory Wilson, the Chairman, Governor's Commission on Supplier Diversity and the Executive Director, Indiana Civil Rights Commission (ICRC), presented the award to IDOA Commissioner Lesley Crane on behalf of Governor Eric J. Holcomb during the 2020 Governor's Celebration of Community Service Awards. Every year ICRC and Indiana Black Expo collaborate to highlight unsung heroes and prominent leaders throughout the state for their outstanding achievement within the African American communities. In a special acknowledgement congratulations to our Commissioner on receiving this acknowledgement for her leadership and commitment to the Indiana Department of Administration Division of Supplier Diversity!

Disparity Study 2020

The Governor's Commission on Supplier Diversity relies on the Statistical Analysis of Utilization Study (Disparity Study) to establish annual goals for participation of MBEs to ascertain a "compelling interest" as set forth by *Richmond v. Croson*, 488 U.S. 469 (1989). The Study includes data from July 1, 2013 through June 30, 2018 on both contracts and subcontracts, as well as the availability and utilization of MBEs and WBEs in the State of Indiana. The Disparity Study reports on the utilization of MBEs and WBEs, in accordance with Indiana statute IC 4-13-16.5 for IDOA and applicable separate bodies, corporate and politic. The focus of the Study is to determine availability and utilization with the requirements set forth in IC 4-13-16.5-2 and Title 25 of Indiana Administrative Code (IAC), Article 5.

In September 2019, the IDOA commissioned BBC Research & Consulting (BBC) to conduct a Disparity Study to assess whether MBE, WBE and IVOSB businesses face any barriers as part of the State of Indiana's contracting processes. Information from the study helps IDOA assess its efforts to encourage the participation of MBE/WBE/IVOSB businesses in state contracts and help inform any refinements that IDOA might make to its implementation of the State's supplier diversity program or state contracting policies.

The Disparity Study focuses on construction, professional services, and goods and supplies contracts and procurements that state agencies and State Educational Institutions awarded between July 1, 2013 and June 30, 2018. BBC initiated the disparity study in September 2019 and will complete the study at the end of December 2020.

In an effort to spread awareness, DSD hosted the State of Indiana Disparity Study 2020 Update Webinar on April 30th. During the webinar, BBC Research spoke to 157 attendees about what to expect from the Study, what type of data was collected, what the data analyses looked like, and when to expect the final report. Attendees also heard from IDOA Commissioner Lesley Crane, Gregory Wilson, the Chairman of the Governor's Commission on Supplier Diversity, and Maia Siproshvili, Deputy Commission of the Division of Supplier Diversity.

Out in the Field

Throughout 2020, DSD Webinar series hosted twenty-seven (27) panelists, and four-hundred and twenty-three (423) participants. In addition, the Indiana Department of Administration 12th Annual Division of Supplier Diversity Business Conference had 675 participants. Finally, DSD hosted 40 webinars and participated in 31 virtual webinars reaching 4,068 participants.
