Knightstown electric rate case: Consumer comments invited

The Indiana Office of Utility Consumer Counselor (OUCC) is inviting written comments from Knightstown municipal electric customers on the utility's pending rate case.

The OUCC – the state agency representing consumer interests in cases before the Indiana Utility Regulatory Commission (IURC) – is reviewing the utility's request and has not yet taken a position in this case. The OUCC currently anticipates completing its review and filing its report with the Commission on June 3, 2014.

Current base electric rates for the Town of Knightstown were approved in 2006, with the utility also making quarterly adjustments – subject to OUCC review and IURC approval – to recover purchased power costs. According to its filing, the utility is seeking the pending rate increase due to higher operating and maintenance costs, and to pay for capital improvement projects including a substation upgrade, new trucks and new poles.

Under the town's request, the monthly electric bill for a residential customer using 1,000 kilowatt hours (kWh) would rise from \$93.80 to \$102.84.

Knightstown is seeking the rate increase through the state's Small Utility Filing Procedure, which is available to utilities with fewer than 5,000 customers and is designed to reduce the time and expense involved with regulatory filings. Savings are gained by allowing utility staff to use standardized forms and the utility's resulting need for less assistance from rate consultants or attorneys.

The standard for OUCC and IURC reviews on small utility filings is the same that applies to traditional utility filings. The OUCC conducts its review on behalf of consumers and presents its written report and recommendations to the IURC with regard to the utility's request. The IURC then reviews the evidence and determines what is in the public interest regarding the filing (a balancing of utility and customer interests). A settlement agreement is possible in any legal proceeding; such an agreement would require IURC approval. The OUCC attempts to reach a compromise where possible in each IURC case on behalf of ratepayers.

More information on this case, including the utility's filing, is available online at www.in.gov/oucc/2754.htm.
