Composting 3-6 Grade

Hi there, I'm Compost Guy and I'm here to tell you all about me!

Let's start with who I am: I am a mix of dry leaves, fruit and vegetable scraps, even grass clippings that have been put into a pile. Add a little water every now and then, use a shovel to mix me up and give me some time. Your pile will eventually turn into soil!

So remember composting requires three things:

1. Brown Stuff:

Dead leaves, pine needles, twigs

2. Green Stuff:

Clippings, vegetable and fruit scraps, houseplants

3. Water

Word UNSCRAMBLE

Unscramble each word below to discover its connection to composting!
